

DISPLAYING AND PROTECTING YOUR METAL IMAGE INFOGRAPHIC SIGNS IN AN EASY TO ASSEMBLE WAY WITHOUT BEING BULKY OR INTRUSIVE HAS NEVER BEEN MORE ELEGANT OR SIMPLE. OR TOUGH.

The bFrame Interlocking Sign System combines strength and good looks with the flexibility of modular assembly for ground, wall or angled in ground mounting.

GROUND MOUNT. Upright

The robust welded aluminium frame supports a 4mm thick face plate - tough enough to take a pounding for many years in all weathers without rust or rot. On site assembly is simple, quick and super strong with 6x100mm welded interlocking lugs. Just a single screw locks each leg in place. Legs are 57mm box section with a 6mm radius.

The innovative design allows water to flow away from the faceplate reducing the buildup of grime around the frame while improving air flow and reducing wind-force, features which help keep the bFrame firmly in place for decades.

bFrame is available in standard sizes, but can be modified to suit your requirements and powder coated in a range of colours to compliment the environment.

Sizes are based on our standard printed plates sizes. (mm)

Print Size:	194 x 294	294 x 446	394 x 594	594 x 994
bFrame Size:	266 x 366	366 x 512	466 x 666	666 x 1066
bLeg:	825	1000	1250	Two at 1250

bFrame. Upright, 3 tile

THE bFRAME SIGN SYSTEM COMBINES STRENGTH AND GOOD LOOKS PROVIDING AN ECONOMICAL, LONG TERM SOLUTION FOR WALL MOUNTED SIGNS.

WALL MOUNT.

Available in standard sizes to suit our printed sheets the bFrame wall is simply and permanently fixed to any type of wall using screws, bolts or anchors.

Access to the bFrame wall fixing points is via an access hole in the front of the frame. A nylon bush fitted to the screw prevents a galvanic reaction between the aluminium frame and the screw or bolt.

Once mounted the access hole is capped with a heat stabilised UV resistant black nylon locking cap. A nylon starlock washer holds the bush in place during assembly, and also packs the bFrame wall slightly off the wall to allow drainage between the sign and the wall.
